

WICKS AND MARTIN LTD SUSTAINABILITY POLICY

Wicks and Martin LTD is committed to minimising its impact on the environment and believes that a successful future depends on its sustainability, believing that there is always room for improvement.

All employees are responsible for its implementation.

The work environment is well maintained, the health and safety of employees and visitors is of paramount importance.

Recycling is actively promoted; any reusable products to be labelled up with batch numbers for traceability, incoming packaging is reused where possible or disposed of in the correct manner along with other unusable waste.

The product range is used across many different applications enabling keeping the minimal amount of stock resulting in less waste and only use approved suppliers.

Wicks and Martin LTD will continue to promote environmental awareness, responsibility and best practices to support the environmental sustainability of the company through education and in-house initiatives to reduce our environmental footprint.

Good Sustainability is good business
